

Impact of Unprecedented Remote Working due to COVID-19

Hey folks, I am conducting a research on the impact of unprecedented remote working on a developer's productivity. The purpose of this survey is to help me understand the challenges you faced after the pandemic.

The results of this survey will be used for my university's research. Also, I will be sharing the results with Glovo so they can provide better support to you guys.

All completed survey entries are anonymous and confidential and will be available on my GitHub repository.
